

A Thousand Dreams

Eric Myles Project

Verse 1

There I was standing near the edge, of you
So close I could feel you breath

Nothing holding me,... from you
A dream or really true

Chorus

Walked across burning deserts, a thousand times or more
You on the other side calling me (calling me)
A thousand dreams, A thousand dreams before

Verse 2

Hoping you would rescue me, I needed to believe
Rescue from your own mirage, you needed to receive

You were drowning, in the shallow end
Way beyond salvation, I tried to set you free

Chorus 2

Walk across burning deserts, a thousand times or more
You on the other side calling me (calling me)
A thousand dreams, A thousand dreams before

Sax solo over ½ verse

Verse 3

Kisses bitter sweet, parched from desert scape
Like a moth to the flame, a fatal torch before I wake

Chorus 3

Walked across burning deserts, a thousand times or more
You on the other side calling me (calling me)
A thousand dreams, A thousand dreams before

Still in a dream
