

Nightingale

Eric Myles Project

Verse One

Jackie had a dream that never went away
She couldn't explain, the song in her heart
That made her this way, made her this way
Big city lights piercing through the night
They're singing her song, calling...
Come to meeeee...
The only way out was to hit the streets... (beat feet... spoken)
No one could tell her dreams were out of reach

Chorus

Nightingale be free (Nightingale be free)
Sing your songs for me
See your dreams come true (Nightingale sing for me)
Nightingale

Verse Two

Nightingale sings for love, sings for hate
One for her supper, one for a date
Knocking on doors looking for a break
Waiting on tables to turn her luck around
Up town, down town dives and jive
Petty songs playing live mic
While Jack and Dianne do what they please
Into the night American dream
Sing your heart out till morning comes,
and you will rise

Chorus

Nightingale be free (Nightingale be free)
Sing your songs to me
See your dreams come true (Nightingale sing for me)
