

Over and Over

Eric Myles Project

2019

Intro: A2 F#m D2 E13b9

V1-1

She moves in mysterious ways
Revealing what she doesn't say
Choosing every move, closer and closer

V1-2

She came to me
Like the dawn through the night
Warm and sweet
Tender, so tender

V1-3

So familiar now she lingers
More than ever we are
More than friends we are changing

Chorus 1

Over and over she says
I'm not over you, You're not over me
Then we kiss, then we kiss, over and over

Interlude

We are changing,
Rearranging
Before our story is over
Fire and ice, Fire and ice mmm

V2-1

I watch her lovely face
And not the blade,
Removing the silver sliver
I thought I'd die
Over and over again...

V2-2

This is our story
Chapter and verse
Two lovers entwined, for better for worse

V2-3

With a silent look she says
I need you
There's no doubt it's the truth

Chorus 2

Over and over she says
You're not over me, I'm not over you
Then we kiss, then we kiss, over and over

Outro

Over and over she says
You're not over me, I'm not over you
Then we kiss, then we kiss
Two lovers entwined for better for worse
