

# **This Time Around**

*Eric Myles Project*

## Verse

The sun rose up this morning  
Like every day before, and still  
I'm sure it will, tomorrow  
Over mountains, over hills  
All I ever need in life  
Is someone so familiar  
When I rise

## Chorus

If we could ride this storm, for all these years  
Through the laughter... and the tears  
No matter how the world turns, no matter what our souls yearn  
This time around we're gonna know why we came here

## Verse

Old memories, left behind  
This time around, new beginnings  
All our dreams filled with promise  
Take my hand and hold on tight  
Feel our hearts, taking flight

## Chorus

If we could ride this storm, for all these years  
Through the laughter... and the tears  
No matter how the world turns, no matter what our souls yearn  
This time around we're gonna know why we came here

## Verse

I remember falling down, and the climb becoming steeper  
She remembers feeling empty, chasing memories ever deeper  
This time around, the air we breathe is clear  
Gonna watch the sun rise together, like the very first time

## Chorus

If we could ride this storm, for all these years  
Through the laughter... and the tears  
No matter how the world turns, no matter what our souls yearn  
This time around we're gonna know why we came here

## Outro

This time around...
